## SUMMARY

Results-driven full-stack developer with experience in delivering high-quality web applications. Skilled in creating scalable solutions and enhancing user experiences. Committed to best practices in software development and dedicated to continuous learning and growth in the field. Passionate about contributing to open-source projects and collaborating with the developer community.

## EXPERIENCE

### Mern Stack Web Developer

MR-Impact

August 2025 – November 2025, Faridabad, Haryana

- Engineered dynamic user interfaces and optimized backend logic as a MERN Stack Developer Intern at MR Impact, ensuring seamless integration and data flow.
- Developed a full-stack event portal for the Manav Rachna University, DSW department to manage campus-wide clan activities.
- Architected and deployed a full-stack survey management platform using the MERN stack, allowing users to create, distribute, and analyze surveys in real-time.

## PROJECT

### SurveyZen

[surveyzen.live/](https://surveyzen.live/)

- Architected and deployed a full-stack survey management platform using the MERN stack, allowing users to create, distribute, and analyze surveys in real-time.
- Engineered robust RESTful APIs with Node.js and Express to handle complex CRUD operations, ensuring efficient data flow between the client and MongoDB database.
- Integrated advanced analytics dashboards that visualized user response data, empowering organizations to extract actionable insights and drive data-informed decision-making.

### MediCare+

[smart-health-care-gamma.vercel.app/](https://smart-health-care-gamma.vercel.app/)

- Built MediCare+ as a centralized digital hub for managing healthcare resources, integrating appointment scheduling, health records, and teleconsultation features to enhance user accessibility and care coordination.
- Engineered a centralized platform for health management, featuring an AI-driven report summarizer and secure personalized user vault for streamlined access to medical records.

### Clan-Event-Manager

[clan-event-manager-0-1-kg7.vercel.app/](https://clan-event-manager-0-1-kg7.vercel.app/)

- Developed a full-stack event portal for the Manav Rachna University, DSW department to manage campus-wide clan activities.
- Engineered an integrated clan event manager that centralized scheduling, streamlined participant registration, and enhanced real-time tracking of student engagement across campus initiatives.

## EDUCATION

### Bachelor of Technology in Computer Science and Engineering

Manav Rachna University · Faridabad, Haryana · 2027

## AWARDS & HONORS

### Nasa Space Apps Challenge 2025 Local event Noida

- Secured top rank among 120 teams in the local regional hackathon organized by Hack2skill along with my team.
- Awarded a ₹25,000 cash prize for technical innovation and problem-solving.

## SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Redux, shadcn/ui

Backend: Node.js, Express.js, RESTful APIs, WebSockets (Socket.io), Redis

Database: MongoDB, Mongoose

Cloud / BaaS: Supabase, Firebase

Deployment / DevOps: Docker, CI/CD (GitHub Actions)
